

Multi-Venous IV Training Kits

Cat. No. 270-00001

Life-like adult arm reproductions with replaceable skin and veins designed for peripheral intravenous therapy.

Description of features:

- Venipuncture possible in the antecubital fossa or dorsum of the hand.
- Peripheral IV-line insertion and removal.
- Accessible veins include median, basilic and cephalic.
- Palpable veins enable site selection and preparation.
- Infusible veins allow peripheral therapy with IV bolus or push injection method.
- Peripheral IV-line maintenance including assessment and rotation of site and dressing, solution, and tubing change.
- Replaceable skin and multi-vein system ensure longevity of model.
- Articulates to adult manikins.
- Arms may be purchased separately.
